

# KRIS LOVEJOY

グローバルプラクティスリーダー、セキュリティ&レジリエンシー

Kris Lovejoyは、サイバーセキュリティとプライバシーの分野で国際的に認められたリーダーであり、キンドリルのセキュリティ&レジリエンシープラクティスのグローバルのリーダーです。

Krisは、前職のEYから入社しました。世界有数のプロフェッショナルサービス組織であるEYでは、サイバーセキュリティのグローバルコンサルティングリーダーとして、数千億円規模のセキュリティプラクティスの責任者をしていました。

それ以前は、2019年にコムキャストが買収したAIを活用したセンス&レスポンスプラットフォームであるBluVector Inc.の創設者兼CEOを務めていました。さらに、Krisは、IBMのセキュリティサービス部門の

ゼネラルマネージャーの任を担っていた時には、IBMのグローバル顧客向けにエンドツーエンドのセキュリティプログラムを構築するチームを率いていました。また、IBMのウーマンダイバーシティ委員会の議長も務めました。

Krisは、リスク管理に関する分野で米国およびEUの特許を保有しています。2022年にCIOルックマガジンの「最も象徴的なエンタープライズセキュリティリーダー10人」、2021年にコンサルティングレポートの「サイバーセキュリティリーダートップ50」、2020年にコンサルティングマガジンの「トップ女性テクノロジーリーダー」に選ばれました。世界経済フォーラムのサイバーセキュリティ委員会のメンバーを務めています。

# The Top 50 Cybersecurity Leaders of 2021

October 26, 2021

The Consulting Report is pleased to announce The Top 50 Cybersecurity Leaders of 2021. As the threat of cyberattacks increases, so does the need for specialized professionals who can understand and safely navigate the digital world. With that in mind, the executives and consultants selected for this year's award represent some of the most experienced and

forward-thinking consulting firm leaders who have continued to make significant contributions to the cybersecurity space. We evaluated each nominee based on a series of factors, carefully weighing their demonstrated cybersecurity expertise, professional milestones, tenure in the industry, and extended capabilities in enterprise risk mitigation.

This year's awardees include executives like Kelly Bissel, who has grown Accenture's Security division to a \$3 billion business as its Senior Managing Director; Andrew Morrison whose Cyber Strategy, Defense, and Response practice at Deloitte employs advanced techniques such as war-gaming and adversary simulation to bolster preparedness for organizations; and Michael LaRouche, who distinguished himself in leadership positions at Lockheed Martin and Raytheon before assuming Presidency of SAIC's National Security Space Sector. As we have seen in recent times, vulnerability to cyber threats is rising as more industries become digitized in the modern world. This year's awardees are among the most accomplished leaders who continue to guide businesses and other organizations through an ever-changing landscape. Please join us in recognizing and celebrating the achievements of The Top 50 Cybersecurity Leaders of 2021.

**1. Kris Lovejoy, EY**  
Title: Global Consulting Cybersecurity Leader

As Global Consulting Cybersecurity Leader at London-based accounting company EY, Kris Lovejoy works with clients in a broad variety of sectors to help them boost their security measures to the next level. A frequent contributor to Forbes and Fortune, as well as a speaker at RSA and Infosec conferences the world over, Lovejoy is recognized as a global expert in cybersecurity in general—and compliance and governance in particular.

After building a reputation for excellence in vice presidential positions at TruSecure and Consul Risk Management, Lovejoy cut her teeth as VP of security strategies and general manager with IBM Security Solutions. Subsequent to her tenure with IBM, she was president of Acuity Solutions and CEO of BluVector, an AI-driven network security firm based in Maryland. In her current position, Lovejoy devotes a great deal of effort to increasing access to the cybersecurity world among women and other traditionally neglected groups. Lovejoy earned a bachelor's degree in English from Lafayette College in Easton, Pennsylvania.

## 2014 Women in IT Security: Kristin Lovejoy

[Karen Egger Hoffman](#) · 2014年8月4日

It's fair to say that Kristin Lovejoy understands IBM's information security approach inside and out, largely because she helped shape both the corporation's internal and customer-facing infosec strategy.

The dynamic executive, who now holds the position of general manager of IBM's Security Services Division, has in fact played three significant information security roles at the IT goliath. When she first joined IBM in 2007, the company didn't have a security division, and Lovejoy was charged with helping IBM understand what the market looked like and their strategic approach to it, and carve out new opportunities to reach out to CISOs at client companies.

Later on, Lovejoy was pulled into IBM's internal organization to help develop policies and resources for the company to manage its own information security in-house as the corporation's vice president of technology

## Wisdom From The Women Leading The Cybersecurity Industry, With Kris Lovejoy of Kyndryl

An Interview With Tyler Gallagher

# KRIS LOVEJOY

Global Practice Leader, Security & Resiliency

Kris Lovejoy, an internationally recognized leader in the field of cybersecurity and privacy, is the Kyndryl Global Practice Leader for Security and Resiliency.

Kris comes to Kyndryl from EY, one of the world's leading professional services organizations, where she was the global consulting cybersecurity leader and responsible for the organization's multi-billion-dollar security practice.

Prior, she was the founder and CEO of BluVector Inc., an AI-powered sense and respond platform that was acquired by Comcast in 2019. Kris was also

general manager of IBM's Security Services division, where she led teams that built end-to-end security programs for IBM's global clients. She also served as co-chair of IBM's Women's Diversity Committee.

Kris holds U.S. and EU patents in areas around Risk Management; was named CIO Look Magazine's "10 Most Iconic Enterprise Security Leaders" in 2022, The Consulting Report's "Top 50 Cybersecurity Leaders" in 2021, and Consulting Magazine's "Top Woman Technology Leader" in 2020; and has served as a member of the World Economic Forum's cybersecurity committee.
